

LEMBAGA JURUKUR TANAH  
SEMENANJUNG MALAYSIA

Bil: LSB 6 Pt.2/26

Ibu Pejabat Jabatan Ukur,  
Jalan Gurney,  
Kuala Lumpur.  
26hb September 1978.

Semua Jurukur Berlesen,

Tuan,

Pekeliling L.J.T. No.1 Tahun 1978

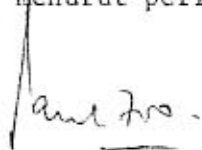

Submission of Survey Plan, Field Notes, Calculations and  
FORM L.J.T. 2 to the Survey Department.

When carrying out title surveys, all Licensed Land Surveyors are required to ensure that the surveys comply with all the requirements in accordance with the Licensed Land Surveyors Regulations 1959. Therefore all survey plans, field notes, calculation should be carefully scrutinised to ensure that they are as correct as possible before they are submitted to the Survey Department. These survey plans, etc. should not contain so many errors and omissions that give the impression that they were not adequately checked and were submitted for the purpose of obtaining early payment of survey fees.

There was an occasion when a Director of Survey, on receipt of survey plans etc. together with the L.J.T. 2 forms made a cursory inspection and detected so many errors and omissions that he immediately returned them to the Licensed Land Surveyor together with the L.J.T. 2 form resulting in the delay of payment of survey fees.

In order to avoid any such action by the Survey Department, all Licensed Land Surveyors are therefore requested to scrutinise all work carefully before the plans etc. are submitted to the Survey Department.

Saya yang menurut perintah,

( DATO' PAUL FOO )  
Pengerusi,  
Lembaga Jurukur Tanah,  
Semenanjung Malaysia.

s.k. Semua Pengarah Ukur.
